

How to Play Super Mario

By Victoria

This is telling you how to play super Mario on the DS and these are the instructions you need to play this game.

First you need a DS and a game. Then you open the DS and it will have buttons.

Second you turn your DS on. To turn on the DS there is a button on the right side, push it up. Third you push the 'a' button two times. It will take you to the menu. Then you will see a rectangle and push the 'a' button two more times.

Fourth you move the plus button to right and push the 'a' button to start the game. It will show how many men you have before you start the game. Fifth you push the plus to the right and that is how you move to different spots. Sixth you push the 'a' button if you see a brown mushroom then you will jump over it. If you see a turtle you will jump over it. Last you jump on to the huge flag. Then you will jump off and move to the next level.
